**From:** Bernie Schroeder, Director of Public Works  
Megan Siren, Administrative Analyst  
**Date:** January 14, 2013  
**Subject:** Street Sweeper Repower

### *The Issue*

Shall the City of Auburn approve the repower of a Street Sweeper for the Public Works Corporation Yard Division?

### *Conclusion and Recommendation*

Staff recommends that Council BY RESOLUTION, authorize the Director of Public Works to repower the 2002 Johnson Street Sweeper.

### *Background*

The City purchased and received a new street sweeper for the Public Works Corporation Yard in 2011. The Street Sweeper is utilized by the Public Works Corporation Yard staff primarily to clean public streets throughout the City of Auburn including the Airport Industrial Park and portions of the Airport Municipal Airport. Once the new street sweeper was purchased, the City placed the older 2002 Johnson Sweeper as a back-up unit.

Due to a needed hydraulic repair on the 2002 Johnson Sweeper, the older sweeper is currently inoperable. To maintain the existing maintenance schedule for street sweeping, the City needs to have at its disposal a fleet of two street sweepers. Rather than purchasing a new street sweeper, staff recommends the City Council approve funding to repair the older sweeper and to install a diesel particle trap to ensure compliance with the California Air Resource Board (CARB) requirements. The repair and CARB compliance will not exceed \$29,000.

### *Alternatives Available to Council; Implications of Alternatives*

1. Proceed with Staff Recommendation
2. Do not proceed with staff recommendation

### *Fiscal Impact*

The street sweeper repowering will be paid with available fund balance from the City's Facilities and Equipment Replacement (FEP) Fund. The Street Sweeper Repower will not exceed \$29,000.
